This course is primarily intended for healthcare professionals involved with enhancing the rational use of medicines especially new medicines

Topics covered

- Principles of the appropriate use of medicines
- HTA and the managed entry of new medicines including formularies and quality indicators
- Horizon scanning activities, forecasting and critical drug evaluation activities
- Regulatory pathways especially for biotherapeutic products including biosimilars
- Off-label use of medicines
- Critical evaluation of new medicines
- Use of databases to monitor effectiveness and expenditure on new medicines in clinical care
- Budgeting of new medicines
- Dealing with uncertainty in health economic submissions and evaluations
- Risk sharing arrangements (from a payer perspective) including coverage with evidence schemes
- Influencing prescribing behaviour
- Prescribing and outcome monitoring
- Developing an essential medicines/ priority list of Oncology Medicines

Key personnel

in their field will conduct the course. These include (provisional):

- Ministry of Health
- Wojciech Matuszewicz (Poland)
- Ewa Warمیńska (Poland)
- Małgorzata Bała Cochrane Collaboration (Poland)
- Dr Magdalena Władysiuk (Poland)
- Dr Hanne Bak Pedersen and Dr Nicola Magrini (WHO)
- Professor Rickard Malmström and Professor Björn Wettermark (Sweden)
- Professor Stephen Campbell (Australia, Germany and UK)
- Professor Angela Timoney (UK)
- LIS, Norway
- Dr Brian Godman (Sweden and UK)
- Dr Roberta Joppi (Italy)
- Dr Jurij Fürst (Slovenia)
- Dr Jolanta Gulbinovič (Lithuania)
- Gisbert Selke (Germany)

Course fees per participant (including VAT, for the full 3 days)

- 1700 PLN (equivalent to €400, including VAT) – Government, Health Authorities, Health Insurance Agencies and Universities
- 3700 PLN (equivalent to €850, including VAT) – Commercial organisations
- 200 PLN Warsaw by night (optional extra) - organised on the first evening giving delegates a chance to enjoy the nightlife of the capital city of Poland – paid directly to the organiser.

These course fees cover all lectures and workshop activities, all subsistence during the day, a Get Together Cocktail on the first night at the Conference hotel, and the Gala Dinner on the second night including transport from the Conference hotel. The fees do not cover hotel, travel or evening subsistence costs for the delegates apart from the Gala Dinner.

Registration

Registration has started and lasts until 31st March. You can register by filling the application form and sending it to Agency for HTA & Tariff System (Poland). The application form and all current information about the workshop including the draft programme are available on the AOTM web site: <http://www.aotm.gov.pl>. Details of the Conference hotel will be available in March. Early registration is advised as places may be limited to maintain a workshop environment.
