## A checklist for HTA reports

This summary form is intended as an aid in recording of the extent to which a health technology assessment (HTA) report meets the 15 questions given in the checklist. To be completed and sent to the INAHTA Secretariat by email (secretariat@inahta.org).

It is NOT intended as a scorecard to rate the standard of HTA reports – reports may be valid and useful without meeting all the criteria that have been listed.

An introduction, background, objective, context of material in the HTA checklist, etc is available at <a href="https://www.inahta.org/HTA/Checklist">www.inahta.org/HTA/Checklist</a>.

| Reference of report                     | Elements to evaluate for managing a patient in outpatient surgery |
