Aim

To determine the safety, effectiveness, and cost effectiveness of BIOS 9000, a high-voltage electric field therapy unit for treating headache, muscle pain, insomnia, chronic constipation, lumbago, and other disorders.

Conclusions and results

No scientific evidence was retrievable on the safety, effectiveness, or cost effectiveness of BIOS 9000.

Recommendations

At present, not recommended.

Methods

Searched databases included PubMed, Ovid, ProQuest, Ebscohost, Cochrane Database of Systematic Reviews, and Cochrane Clinical Trial Registry. Further information from the importer/distributors was requested. Additional clarification on the safety of the device was also sought from the Electrical Engineering Division, Ministry of Health, Malaysia.

Further research/reviews required

More clinical research is warranted on the safety and effectiveness of the device.
